

Ministry of Civil Aviation

EHCAAN

Introduction

- Arab Republic of Egypt is one of the leading countries signed the International Civil Aviation Organization (ICAO) Chicago Convention, is mandated to keep complying with the standards and recommended practices for facilitations and safeguarding the civil aviation activities.
- The ministry of Civil Aviation was established in year 2002, to achieve all reforms and developments of the Egyptian Civil Aviation sector .

Establishment of EHCAAN

- EHCAAN was incorporated in 2001 as a state holding company in charge of public airports.
- EHCAAN has been made as an independent company , with financial and administrative self-support to run its activities entirely on commercial basis.

Vision ,Mission & Objectives

Vision

To be a leading company in Africa & Middle East providing high standards of services and to provide the passenger's comfort, safety ,security in the field of civil aviation with commitment to the preservation of environment.

Mission

Implementing projects to develop, modernize, and upgrade Egyptian international airports to meet the increase in air traffic ,

Providing a higher quality of services in both airports & air navigation complying with ICAO standards and recommended practices and ,

Ensuring safety, security and safeguarding the air traffic within our airports and Egyptian airspace .

EHCAAN STRATEGIES

- Developing , modernizing , and upgrading Airports and Air Navigation Services to raise the levels of providing Civil Aviation Services .
- Applying liberalization policies in airports & air navigation activities to increase air traffic & its revenues by encouraging competition in a frame of transparency, equality & stable operating environment.
- Encouraging private sectors to operate, manage Egyptian Airports, and to share in developing the infrastructure of airports.
- Implementing the HUB concept for passengers & cargo in Cairo international Airport .
- Improving human resources in order to operate airports and air navigation services on economical and commercial basis.

Air Navigation

Achievements in Air Navigation Field

- **NANSC has established a modern air navigation system to serve overlying and the landing traffic at Egyptian airports.**
- **Achieving the commercial operation and cost recovery bases in the field of air navigation.**
- **Airspace redesign to meet the airlines economic operation and increase the safety level & orderly flow of air traffic .**
- **Modernization of Cairo Approach and Area Control Center**
- **Establishing and installation of Cairo RADAR station**
- **Approach and Terminal RADAR Stations for 7 Egyptian Airports**
- **Establishing 19 Satellite stations in Cairo and Other Areas**
- **Covering the Remaining parts of the Egyptian Airspace with RADAR**

Launching a Satellite for Navigation & Communication in Africa and Middle East

- **NAVISAT established to launch a Satellite for navigation & communication in Africa and Middle East.**
- **The wide capabilities of the satellite can be invested commercially in other fields outside aviation sector .**

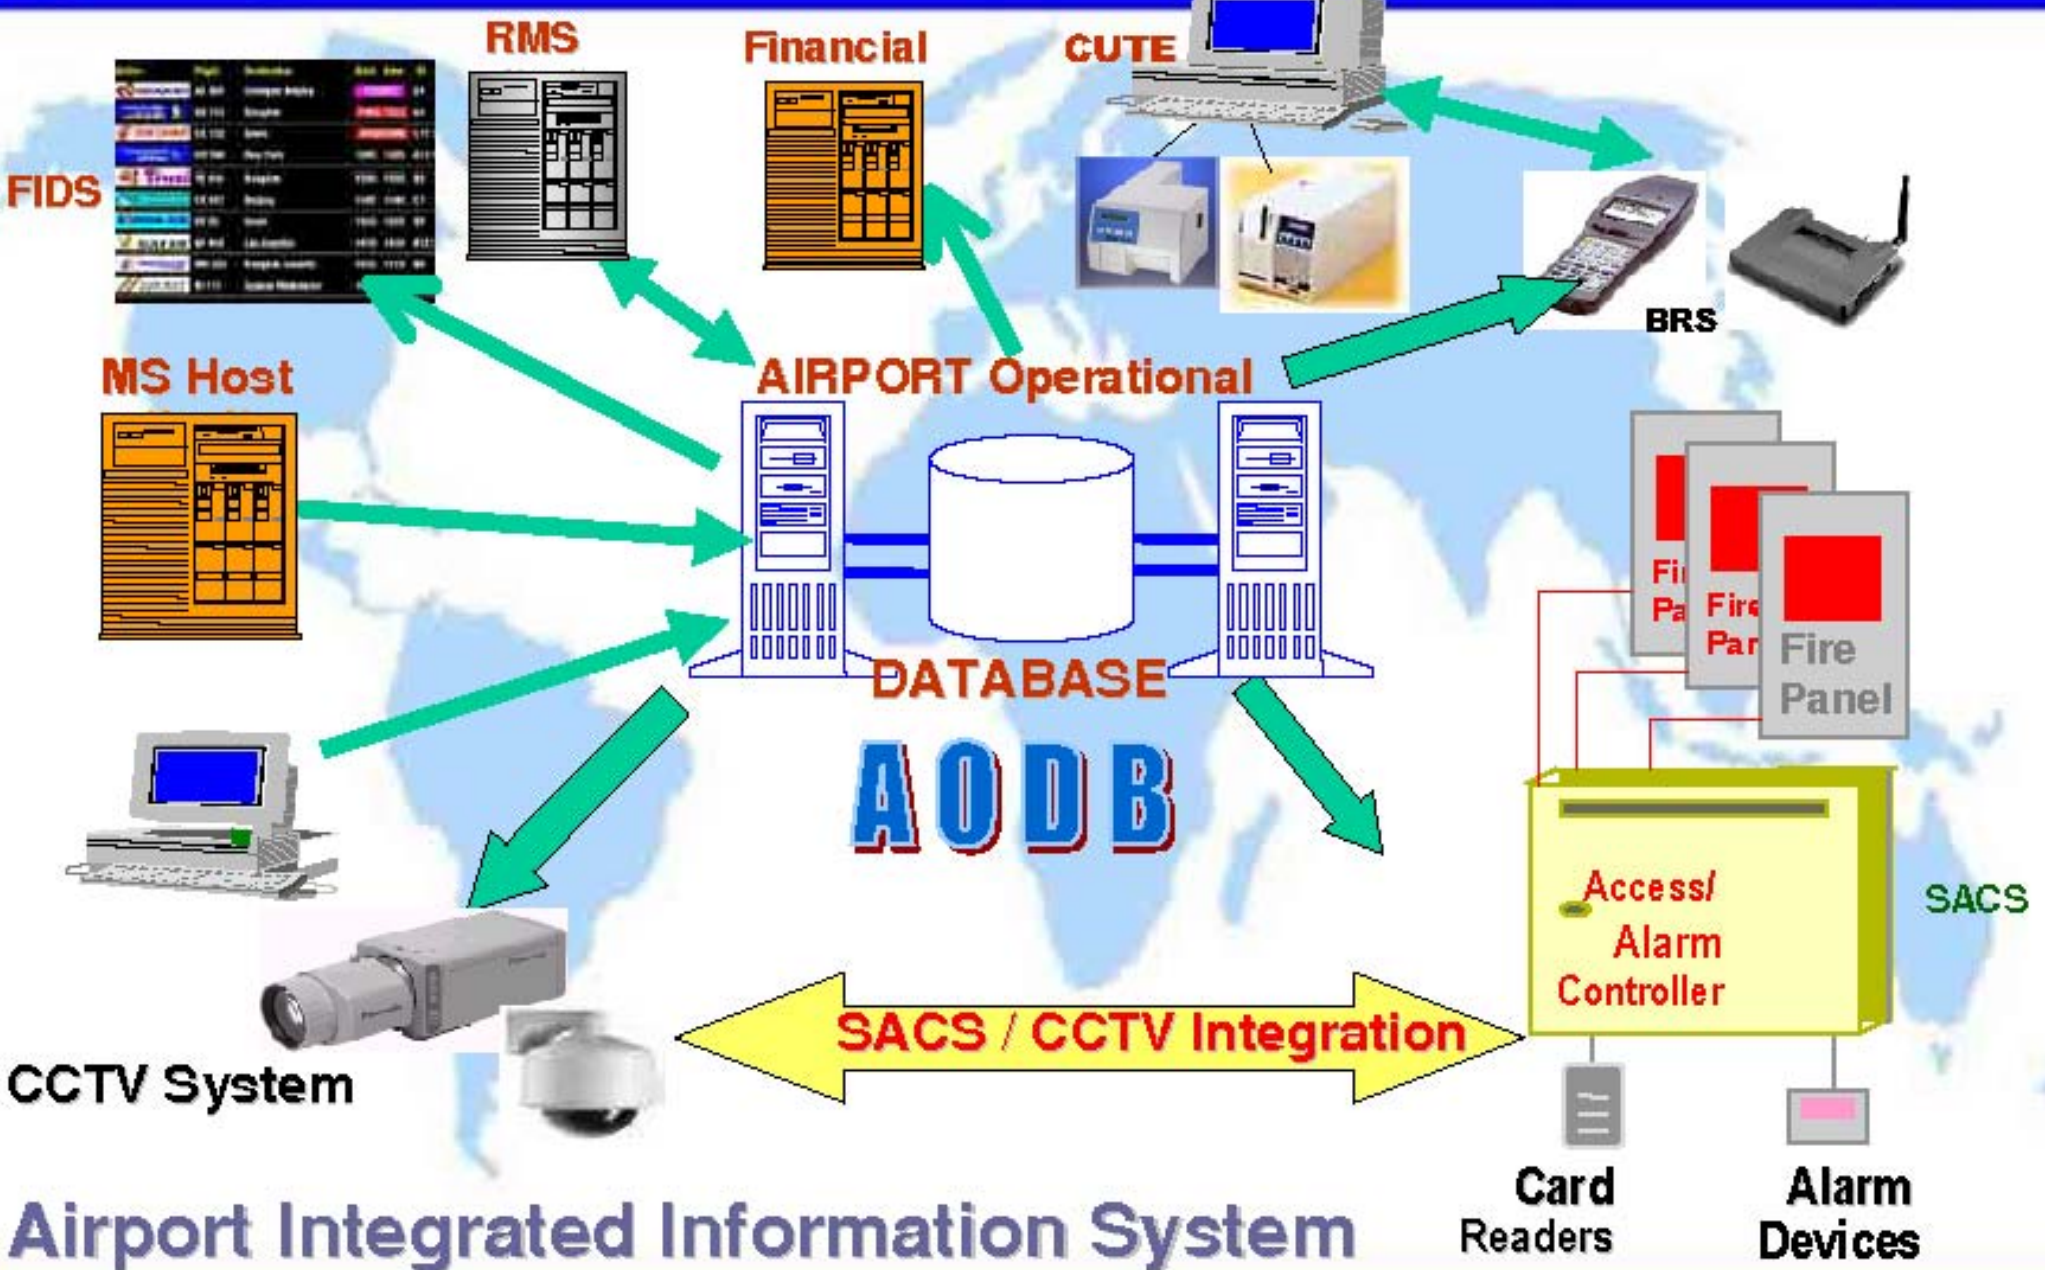

AVIT Projects

Airport Security Solution Project for all INTL. Egyptian Airports

**Managing Passenger and Baggage Check-in Services
(CUTE, BRS , FIDS , LDCS & AODB) in Egyptian Airports**

- **Closed circuit television CCTV**
- **Security Access Control System SACS**
- **X-ray screening machines.**
- **Metal detectors.**
- **Security monitoring and control center.**
- **System integration**
- **Training**
